

MediSync Diagnostic Center

Patient Name	Afsana Chowdhury	Report Date	05 Sep 2026
Age / Sex	29 / Female	Blood Group	B+
Referred By	Dr. Sarah Rahman, MBBS, FCPS, MD (Endocrinology)	Department	Endocrinology

Laboratory Results

Test	Result	Reference Range	Unit	Flag
TSH (Thyroid Stimulating Hormone)	2.36	0.40 – 4.00	mIU/L	NORMAL
T4 (Total Thyroxine)	8.4	5.0 – 12.0	µg/dL	NORMAL

Illustrative Interpretation

The example TSH and total T4 values shown above fall within the illustrative reference ranges used in this sample. Actual thyroid function must be assessed using a genuine laboratory test, the laboratory's own reference intervals, and clinical findings by a qualified healthcare professional.

Clinical Notes

This document contains fictional sample data created for demonstration purposes only. It is not a genuine medical report, does not represent an actual laboratory result, and must not be used for diagnosis, treatment, or other clinical decisions.
